

PLAN. PREPARE. PARTNER. PROTECT.

Improve your business emergency readiness and get up to date communication for credible alerts.

Tools to Help You:

- Implement an Emergency and Security plan
- Evaluate your Security for doors, windows, and parking lots against unlawful intrusion
- Monitor the Live Feed from SPPD twitter account for credible threats
- Safeguard customers, staff and property during times of unrest
- Access contractual services for emergency and recovery related services
- Rapidly return to regular operations
- Make connections with SPPD resources, other business owners nearby, other organizations active in your area

Together we create a stronger and more resilient St. Paul Community.

PREPAREDNESS CHECKLIST

PLAN

- Make sure employees are familiar with your emergency and security plans
- Make sure employee contact information is up to date
- Install uniform interior and exterior lighting
- Install laminated glass or security film to windows and glass doors
- Install security cameras and train employees on how to use them

PREPARE

- Follow mainstream and social media (@sppdmn) for news about anticipated disruptions
- Remain alert for unusual activity and consider removing and/or limiting inventory
- Consider boarding up windows and doors if you deem it's the best interest of your business
- Remove loose items (garbage cans, landscape materials) from parking lots and around building
- Reserve employee parking near the building entrance
